**SUBJECT: This one packs a powerful punch ...**

Greetings [FIRSTNAME],

Faith here from [COMPANYNAME], and I've just gotta tell you about this ...

It's the story of a small boy named Peekay who, against all odds, finally overcame defeat by facing it down.

At five years old he was orphaned and sent to a harsh and unforgiving South African boarding school. Small and all alone, he was bullied and terrified by the older boys 24/7.

One day while riding on a train, Peekay met his first friend ... a boxing champion. The solitary boy decided there and then to be just like his new friend: Strong ... but kind, too.

Years passed. Peekay grew up and learned boxing from the best. So when by chance he met up with one of the bullies from his childhood boarding-school, Peekay was ready.

His old tormentor felt strong and confident as he waited in the ring. When Peekay stepped forward, he was still the smallest of the two. But there was a big difference. Peekay had learned how to use his punches wisely.

So this time his enemy met the ground. This time ... Peekay won the match.

The forceful "one-two" Peekay used to beat the odds and defeat his boarding-school enemy reminded me of something else that packs a powerful punch.

And just like boxing changed Peekay's life, this is an amazing substance that can change yours, too ...

Are you ready to discover what it can do for you?

I'm talking about a magical liquid that's readily available in nature but wasn't "discovered" until 193 years ago.

Ever since then, people have been using it for cleaner homes and healthier lives. And researchers have written over 6,000 articles about this miracle substance in scientific journals worldwide.

But here's the best part ...

Because this impressive solution occurs naturally in nature (not to mention our own bodies), the Big Guys can't patent it.

No kidding. And because they can't, *you* can get it easily and inexpensively at your local corner market.

That's why the Big Guys wish you didn't know about it.

Because when you discover the amazing cleaning powers of this wondrous liquid, you'll throw out their pricey toxic cleaners ... *forever!*

You'll deep-six their high-priced bug killers, too, when you find out about the many garden uses this product has in store for you.

What gives it such a powerful punch and why don't *they* want you to know about it?
